up!

Add & Subtract With ALF

■ Warm up to Math basics! Give your mind a mental work-out with ALF and his exciting Math exercises. ALF wants you to learn to add and subtract using bright shapes and colorful numbers! ALF says, "Train your brain!"

■ ALF's mental workouts include four educational games for children ages four and up. A special section is also provided for parents and teachers, outlining the information presented in the lessons.

■ **Lesson One:** Add the green squares and red triangles! ALF wants you to learn the basics of addition by adding the vivid shapes! Three levels of difficulty are provided.

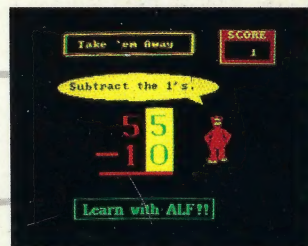

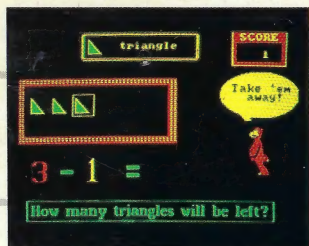

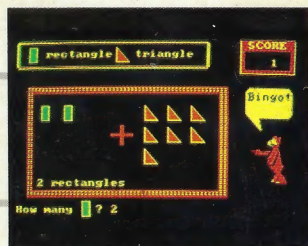

■ **Lesson Two:** Take it away, ALF! ALF will instruct your child to 'take it away' as he/she learns the fundamentals of subtraction!

■ **Lesson Three:** It all adds up to success! ALF will assist your child in adding two and three digit numbers. The emphasis is put on place value.

■ **Lesson Four:** Subtraction becomes a snap with ALF and this program! Your child is encouraged to learn two and three digit subtraction. The emphasis is put on place value.

■ Special note to parents and teachers:

These lessons are designed so children can run them on their own. If supervision is desired, short descriptions as well as suggestions are given to provide additional assistance.
